PRESS RELEASE

VERMEIREN and TNS Join Forces to Bring Personalizable Active Wheelchair Solutions to the Market

Kalmthout, 1st of June 2023 – **VERMEIREN**, a leading manufacturer of mobility aids, has announced a new partnership with TNS, a company specializing in personalizable active and sports wheelchairs, handmade in The Netherlands. The partnership aims to provide solutions for people with unique mobility needs, offering a range of wheelchairs tailored to individual measurements and specifications.

For over 65 years, **VERMEIREN** has been dedicated to improving the lives of people with mobility impairments. The company's commitment to innovation, quality, and affordability has made it a trusted name in the mobility aid industry. TNS shares this dedication to delivering exceptional solutions that cater to each individual's requirements.

We are excited to partner with TNS to expand our offering of personalized active wheelchairs," said Òscar Àrboles, Business Development Manager at **VERMEIREN**. "This partnership allows us to bring more options to people with unique mobility needs, empowering them to move more freely and independently.

Through this partnership, **VERMEIREN** will offer TNS's made-to-measure active wheelchairs in Italy, Spain, Portugal, France and Poland. Personalized solutions are designed to offer perfect fit, bringing greater comfort, support, functionality, and performance, making them ideal for active users expecting their wheelchair becomes an asset.

"At TNS, we believe that every person has the right to a comfortable and functional wheelchair that meets their specific needs," said Sjaak Van Bezouw, co-owner at TNS. "We are excited to partner with **VERMEIREN** to bring our personalisable solutions to more people across the globe."

The partnership between **VERMEIREN** and TNS marks an important milestone for both parties as the two join forces to deliver innovative and personalized solutions to people with mobility needs.
